

Hu-Friedy

SURGICAL CATALOG & REFERENCE GUIDE

HIGH PERFORMANCE, RELIABLE RESULTS

How the best perform

Since 1908, Hu-Friedy has been putting the highest quality, most innovative dental products in the hands of dental professionals worldwide. And today as one of the world's leading dental instrument companies, we continue our commitment to advancing dental performance by supporting these products with world class service, support, education and peer communities. We're committed to making sure the best perform that way.

Hu-Friedy. How the best perform.

A Worldwide Focus on Quality

Hu-Friedy is based in Chicago and has been privately managed by the Saslow family since 1959. Today we employ over 700 talented and committed employees in more than 25 countries – including our production facilities in Chicago and Shanghai, China; our distribution centers in Des Plaines, Illinois, and Tuttlingen, Germany; and our additional offices in Japan, Germany, Italy and the Netherlands. Worldwide, our products are sold in more than 95 countries.

Our mandate for excellence is company-wide. Only at Hu-Friedy will you find more than 300

artisans meticulously handcrafting instruments in a modern manufacturing facility. Only here are employees personally responsible for the quality of their work and each other's. We believe that our success is the result of both our company's commitment to excellence and the dedication and pride of our highly skilled instrument craftspeople, management and staff.

A Legacy of Innovation

Since the Hu-Friedy Manufacturing Company was founded in 1908 by Hugo Friedman, we have proudly collaborated with private practitioners, dental schools and leading educators to develop

new technologies, innovative designs and quality products that are synonymous with value and performance. Because of our reputation for industry leadership, dental experts have been turning to Hu-Friedy with their cutting-edge ideas for over a hundred years.

From our inception, we have been committed to education and developing relationships with students. At the core is our commitment to helping our customers perform at their best and to improve lives through better dentistry. From student to practitioner, Hu-Friedy is proud to be an important part of our customers' professional lives.

How the best perform

HU-FRIEDY'S SURGICAL INSTRUMENTATION

Hu-Friedy's extensive line of surgical instruments, many designed in conjunction with Key Opinion Leaders, educators and institutions, provide the absolute precision and performance required in dental surgery. By employing hybrids of technology, utilizing proprietary materials and processes and through extensive quality controls, Hu-Friedy's instruments are crafted to the highest quality standard, enabling clinicians to deliver the best possible clinical outcome, every time.

“Hu-Friedy's surgical instruments are simply the best. They have been an innovator in instrument design and have maintained a reputation for providing the highest quality instruments for discriminating dentists for decades. Personally, I have relied on Hu-Friedy quality for more than forty years.”

– EDWARD P. ALLEN, DDS, PHD

“I have worked with Hu-Friedy instruments for decades. Their products are quality-made and last a long time, making them a value. What I like best about Hu-Friedy is their continued quest for innovation and improved quality. Recently, they developed a set of luxating hybrid elevators that makes atraumatic extraction a snap in today's implant placing world. They saw the need for specialized instruments and flexed their innovative muscles and delivered.”

– DR. PETER HAUPERS

“Hu-Friedy is infamous of their technical know-how in the manufacturing of hand instruments for dentists. I like Hu-Friedy because of their quality -- when I use a Hu-Friedy instrument, I can see the beautiful design, feel the perfect finish and most importantly work easily with it.”

– DR. JAMES CHOW

“Hu-Friedy instruments are the best high quality, precise hand instruments in the industry. I have successfully worked with the instruments for over 20 years in my practice as well as in my global gIDE hands-on programs.”

– DR. SASCHA JOVANOVIC

“Hu-Friedy provides the doctor with high quality products from a very knowledgeable, helpful and friendly staff. They are able to combine all the advantages of a large company with the personalized services of a small company. They are an invaluable resource for both my practice and my students.”

– DR. JAMES GRISDALE

“There is a proverb in Japan. "An excellent calligrapher does not blame his brush." However, the circumstances in dentistry or in medicine are completely different from this allegory. The reliability and quality of instruments are very important to provide not only the best treatment outcome for the patient, but also the satisfaction for the practitioner. We dental professionals should select and use the best instruments and materials that are accepted by us, when we are the patients.”

– DR. YATARO KOMIYAMA

“When caring for my patients, quality and precision are my priorities. Similar to musical instruments to professional musicians, my surgical instruments are hand-picked and must give me tactile feedback, quality, durability, reliability and precision. I have found all of these qualities in Hu-Friedy instruments.”

– DR. MAX GUAZZATO

“As a periodontist who heavily rely on nonsurgical and surgical instruments to perform periodontal and implant therapy, one can never appreciate enough how a decent practice cannot do without good quality instruments. The productivity that Hu-Friedy yields for my practice over the years is enormous. It provides predictable, practical and profitable service to me and the staff. Organized by IMS, the instruments became cleaner, durable and more efficient. Time and effort putting them to work is significantly reduced.”

– DR. PAUL LIN

“Hu-Friedy has been the backbone of my armamentarium for years. Their surgical line is broad spectrum, has the quality, durability and diversity any contemporary surgeon requires. Considering all the innovations in technology and techniques occurring in periodontal and oral surgery, our profession is lucky to have a company as dedicated to clinicians as Hu-Friedy which provides us with leading instrumentation to bring out best. No matter what line of patient care you are performing of, Hu-Friedy has what you need for state of the art instrumentation.”

– DR. GEORGE MANDELARIS

“I choose to use Hu-Friedy instruments over all others because of their design, quality and durability. Their customer service is unmatched and knowledgeable. Lastly, the ergonomic designs make doing periodical and implant surgery much easier.”

– DR. PETER SHATZ

“In my practice, precision, reliability and predictability are essential during surgery. To provide top quality care without compromise, I rely on the best equipment. For dental instruments, I rely on Hu-Friedy, a company with over a 105 year history of providing top quality instruments that are precise, reliable and long lasting. To perform at my best, my choice is Hu-Friedy.”

– DR. TAKATSUNA NAKAMURA

“When it comes to surgical armamentarium, Hu-Friedy's commitment to quality, craftsmanship and customer service is unparalleled. What makes Hu-Friedy stand out is their superior knowledge of the industry, instrumentation and devotion to clinicians such as myself. A long-term partner in the dental community, Hu-Friedy is our trusted source for surgical needs.”

– DR. LEE SILVERSTEIN

“I find Hu-Friedy always delivers when it comes to creating a quality product. If it is instrument design, product development or day to day service, Hu-Friedy is awesome. Everyone at Hu-Friedy is so friendly and helpful. They are a blessing to work with.”

– DR. PETER NORDLAND

“Hu Friedy Surgical instruments are the primary instruments used by my surgical team at Temple Episcopal Hospital as well as the Graduate Periodontics Clinic at Temple University. The quality, value, and service by Hu Friedy is unsurpassed in the industry.”

– DR. JON SUZUKI

“Hu Friedy and its distributors around the world provide an exceptional service not only for private practioners, but also for professionals organizing clinical demonstrations and workshops. The variety of products offered and the high standard of quality in these products from blades to suture materials minimizes the need to go to many different companies to purchase what you need for your practice.”

– DR. ANDRÉ SAADOUN

“I have used Hu-Friedy instruments for the past two decades. In fact I still use some Hu-Friedy instruments I purchased years ago, because the quality is excellent so they are still in mint condition. Hu-Friedy is also an innovative company, which is important to me as an educator and clinician. It is essential that I have the best quality instruments to work with, so I rely on Hu-Friedy.”

– DR. ISTVAN URBAN

IMPLANTOLOGY SOLUTIONS
IMPLANTOLOGÍA

Hu-Friedy has an extensive line of implantology instrumentation including sinus lift instruments, bone condensers, bone syringes, surgical curettes, periosteals, tissue pliers, bone placement instruments and Rongeurs. Many were developed in conjunction with Hu-Friedy Key Opinion Leaders and global educators.

ELEVATORS ELEVADORES

Hu-Friedy's extensive portfolio of elevators is designed to provide solutions for various extraction techniques. Handcrafted from Immunity Steel™ alloy and heat treated to exacting specifications, Hu-Friedy elevators are engineered with large diameter handles and permanently fixed working ends to optimize control and enhance strength.

Luxating elevators have thin, sharp blades that are used to cut periodontal ligaments. The luxating elevator is used by rocking and cutting vs. an elevator that lifts and pries. Luxating elevators reduce putting pressure on adjacent teeth.

ELEVATORS - LUXATING HYBRIDS

ELEVADORES DE LUXACIÓN HÍBRIDOS

Designed with thin, precisely angled tips and a large diameter handle, the Luxating Hybrids provide improved apical and interproximal access for enhanced oral adaption, aiding in the preservation of the buccal plate by severing the periodontal ligaments during atraumatic extractions.

Periotomes, Luxating Hybrids, Hoexter Mesial/Distal Luxating Elevators and Luxating Elevators are designed with thin, sharp edges for cutting periodontal ligaments. Routine care of these instruments requires maintaining this cutting edge.

ELEVATORS - MESIAL/DISTAL

ELEVADORES - MESIAL/DISTAL

“Throughout history dentists have been taught to extract teeth in the easiest direction – towards the thinnest, supportive buccal bone. However, this technique leads to ischemic or traumatic bone loss of buccal bone resulting in cavernous buccal depressions that will not adequately support an implant.

However, if a mesial/distal approach is used, the buccal and lingual bone is preserved and bone regeneration occurs. This enables successful implant positioning and predictable osseointegration. This is why the Hoexter Mesial/Distal Luxating Elevators are designed to protect the osseous ridge in tooth extractions by luxating roots in the mesio-distal plane.”

- DR. DAVID HOEXTER

APICAL FORCEPS FÓRCEPS APICALES

Hu-Friedy's forged Apical Forceps feature thin, anatomical tapered beaks and longitudinal serrations to penetrate the surrounding bone and firmly grasp the root and crown structure with multiple points of contact, reducing the chance of crushing or fracturing the crown. Clinicians therefore are able to preserve the bone and reduce the risk of root and buccal plate fractures, enhancing clinical outcomes.

Used to extract teeth from alveolar bone.

Hu-Friedy's line of Pediatric Forceps provide child-friendly extraction solutions to enhance patient comfort and preserve delicate tissue and bone. Precision design created specifically for a child's small mouth and tooth surfaces, helps you provide optimal pediatric dental care.

RAINBOW PRESIDENTIAL® PEDO SERIES

Hu-Friedy's Rainbow Presidential Pediatric Forceps feature a unique array of vibrant, rainbow colors to reduce child anxiety and create a more positive patient experience. The series provides child-friendly extraction solutions and a lifetime warranty against material and workmanship defects.

STANDARD PEDO SERIES

The precise, anatomical design of Hu-Friedy's Pediatric Forceps assure a firm, accurate grasp of primary tooth and root surfaces for smooth, seamless extractions reducing the risk of complications. Hand-crafted from surgical-grade stainless steel, Hu-Friedy's Pediatric Forceps ensure superior performance and longevity.

PRESIDENTIAL® PEDO SERIES

Similar to the Standard Pediatric Series, the Hu-Friedy Presidential Forceps are meticulously crafted and finished with a precision hinge, carrying a lifetime warranty against defects in material and workmanship.

KINDER PEDO SERIES

Hu-Friedy's Kinder Pediatric Forceps fit easily and comfortably in your hand while being hidden and less visible to patients. Created for small, shallow crowns and conical shaped teeth, the Kinder design requires less force, reducing the risk of tissue damage and broken crowns.

EXTRACTION FORCEPS REFERENCE REFERENCIA DE FÓRCEPS

FORCEPS BEAKS

The beaks of extraction forceps are anatomically designed to adapt to the tooth at or below the cervical line. Therefore, beaks are either conical, bifurcated, or trifurcated in order to adapt to the tooth or furcations. Many beaks are serrated, which offers additional grasp when extracting teeth.

Conical

Bifurcated

Trifurcated

Serrated

CARE OF HU-FRIEDY FORCEPS

To maintain proper function and appearance, the following points should be adhered to:

- Clean forceps thoroughly before placing in sterilizer.
- Clean and sterilize in an open position

*For instrument lubricant to use on our products see page 134 (IMS Section)

IMPORTANT

- Lubricate with Instrument Lubricant to ensure smooth working action.
- Use Penetrating Oil to correct hard-to-operate forceps. Rust spots or sediment can be wiped off, as they do not penetrate the surface.
- Remove forceps from sterilizer while still hot.
- Do not allow forceps to remain in water or steam moisture for long periods.
- Dry forceps thoroughly.
- Keep forceps away from strong mineral acids and fumes.

HEMOSTATS PINZAS HEMOSTATICAS

Each hemostat is precision engineered from surgical grade stainless steel to exacting specifications featuring a secure ratchet and various working end geometries. Designed to optimize clinical efficiencies as a multipurpose instrument, the Hu-Friedy hemostats are used for clamping off blood vessels, removing small root tips and grasping loose objects.

KNIVES
CUCHILLOS

Hu-Friedy's periodontal knives are manufactured from surgical grade stainless steel and are meticulously handcrafted to ensure smooth, sharp edges ensuring precise incisions and efficient recontouring of soft tissue. From spear-shaped blades for excising interproximal tissue, to oval designs for initial gingivectomy incisions, Hu-Friedy offers a wide range of periodontal knives for various surgical and periodontal procedures.

7 Kramer-Nevins
| **KKN76**
Handle: #6
| **KKN7**
Handle: #4

Sharp, kidney-shaped knife designed to perform rapid gingivectomy and gingivoplasty procedures. Ideal for reinforcing and thinning mesial-distal flap incisions, designing distal and proximal wedges, and retraction of flaps during debridement.

11 Kramer-Nevins
| **KKN116**
Handle: #6
| **KKN11**
Handle: #4

Thin, sharp, bayonet-shaped knife designed to make secondary interproximal and circumferential incisions during gingivectomy procedures. Also used for incision and removal of the interproximal "collar" of tissue during flap positioning procedures and for removal of the "wedge" during distal and proximal wedge procedures.

NEEDLE HOLDERS PORTA AGUJAS

Hu-Friedy Perma Sharp® needle holders feature tungsten carbide inserts with a matched diamond-cut pyramidal profile for enhanced longevity, a secure, positive suture needle grasp and reduced risk of cutting the suture material. With a precision designed hinge, the smooth surface reduces the risk of catching and or cutting the suture material during the knot tying process, enhancing clinical efficiencies. For optimal grip and control, Hu-Friedy offers a variety of design options, including standard, finger and palm controlled closure.

Most Hu-Friedy Needle Holders feature a multi-position ratchet that provides controlled grip pressure and smooth grip release.

OSTEOTOMES

OSTEOTOMOS

Hu-Friedy's extensive line of osteotomes are manufactured from surgical grade stainless steel for enhanced longevity and corrosion resistance. Engineered to split or spread bone, Hu-Friedy osteotomes are available in both interchangeable or large handle designs.

BONE SPREADING KIT

Bone Spreading Kit

A complete set of 25 interchangeable tips and a universal handle to facilitate the closed sinus lift procedure.

5.0 mm | OSTMPU50A

Osteotomes – Tapered Convex Tip, Straight

Developed for the lateral bone condensation of the closed sinus elevation technique. The tip design allows for the insertion of rotationally symmetrical implants (3.3 - 6.5 mm) in soft bone structures. The rounded tip minimizes the risk of perforation when lifting the Schneiderian membrane.

PERIOSTEALS PERIOSTÓTOMOS

Handcrafted from Immunity Steel™ alloy for optimal strength and corrosion resistance, Hu-Friedy periosteals feature precision finished edges for smooth tissue reflection with minimal trauma. Available in a variety of designs, Hu-Friedy periosteals ensure optimal access and clinical efficiencies during surgical and periodontal procedures.

For reflecting and retracting the mucoperiosteum. All periosteals come with the handle shown unless additional options are listed.

PERIOTOMES PERIOTOMOS

Hu-Friedy periotomes are designed to facilitate the removal of teeth with minimal damage to the surrounding alveolar bone by severing the periodontal ligament with the use of the sharp, thin clinically designed blades. Handcrafted from Immunity Steel™ alloy and manufactured with permanently fixed blades to the handle, the periotomes are engineered to optimize edge retention and durability.

INTERCHANGEABLE PERIOTOME

- Thin, sharp blades available in four designs to easily sever the periodontal ligament
- Large diameter handle for enhanced ergonomics, tactile feel and optimal clinical performance
- Longevity and corrosion resistance afforded by handcrafting from the finest grade surgical stainless steel

SCISSORS TIJERAS

Available in Perma Sharp®, Super-Cut and Standard designs, Hu-Friedy scissors are fabricated from special high-tempered surgical grade stainless steel providing longer lasting cutting edges and corrosion resistance. Designed to exacting specifications for balanced, smooth control, Hu-Friedy offers an extensive selection including microsurgical, suture, crown and gold, bandage and general surgery scissors.

MICROSURGICAL SCISSORS

Unique design features allow extremely smooth cutting of fine and coarse tissue with reduced trauma.

SCISSORS/PERMA SHARP® TIJERAS - PERMA SHARP

SCISSOR OPTIONS

Hu-Friedy scissors come in the following styles.

PERMA SHARP®

Featuring tungsten carbide inserts bonded to surgical-grade stainless steel on both cutting edges for smooth, controlled cutting and maximum durability.

SUPER-CUT

Cutting blade honed/serrated to "razor" sharpness with opposing blade finished with fine serrations to avoid tissue slippage.

STANDARD SERIES

A wide array of cutting blades to fit a variety of needs.

BANDAGE SCISSORS

SUTURE SCISSORS

SUPER-CUT SCISSORS

- Unique design features allow extremely smooth cutting of fine and coarse tissue with reduced trauma.
- Cutting blade honed to "razor" sharpness with opposing blade finished with fine serrations to avoid tissue slippage.
- Fabricated from special high-tempered surgical stainless steel to provide longer-lasting cutting edges and corrosion resistance.
- Single gold-colored handle ring for easy identification.
- Super-Cut scissors are ideal for cutting interproximally.

CROWN AND GOLD

The cutting blades on Wagner Scissors are longer and thinner than Kelly Scissors. Mayo, by comparison, is even longer and thicker but with a blunt end.

SINUS LIFT INSTRUMENTS

INSTRUMENTOS PARA LEVANTAMIENTO DE SENO

Featuring a wide range of sinus lift instrument designs, Hu-Friedy offers a variety of size, working-end and angulation options to provide optimal access to separate and reflect the Schneiderian membrane from the maxillary bone and to elevate the membrane during lateral sinus lift procedures.

THE SUTURE DESIGNED FOR DENTISTS

- Hu-Friedy Perma Sharp Sutures are the only suture specifically designed for dentists ensuring efficient and reliable soft tissue closure.
- 300 Series Stainless Steel**, the ideal alloy for dental suture needles, ensures a strong sharp needle pass after pass
- Manufactured from a **stronger alloy composition, increasing ductile strength** - if the needle does bend, it is less likely to break when reshaping.*
- Finer point geometry for smooth tissue penetration**, requiring up to 20% less force than other suture needles**
- Laser-drilled needles** for reduced tissue disruption

Perma Sharp® Suture Needle
Competitor's Suture Needle
(Magnified 35x)

Two Perma Sharp needles.
Notice how the needle diameter is adjusted according to the size of the suture material.
(Magnified 20x)

CYCLES TO FRACTURE - Suture Needles*
(Data on file)

FORCE TO PENETRATE - Suture Needles**
(Data on file)

“ I prefer Hu-Friedy 6-0 polypropylene suture with a C-17 needle for my soft tissue grafting procedures as well as for flap closure due to the precision of the needle size and sharpness. This needle has sufficient length to easily pass under the papillae and through embrasure spaces. The needle's small diameter, smaller than needles on other 6-0 suture products, penetrates tissue more easily and with less damage to the delicate tissue. The monofilament suture is hydrophobic, repels contamination and leaves no marks or creases on tissue margins. It is particularly indicated for microsurgical procedures.”

- DR. EDWARD P. ALLEN

“ Hu-Friedy sutures are the ideal suture for effective and efficient wound closure. The sharp, stainless steel needle allows for smoother suturing, optimizing the overall healing process and patient comfort. I use Hu-Friedy sutures because they are unlike any suture in the industry when it comes to high quality and extreme precision. I also believe in only supporting manufacturers that support organized dentistry, and Hu-Friedy is dentistry's best supporter.”

- DR. LEE SILVERSTEIN

“ I can always count on Hu-Friedy sutures to be of the highest quality and value. Regardless of the suture material used (chromic gut, PGA or silk), I can count on both the quality of the needle and suture material. Packaging and labeling are also user friendly since the operating theater requires simplicity and accuracy. Once again, my appreciation to Hu-Friedy.”

- DR. JON SUZUKI

SYRINGES

JERINGAS PARA ANESTESIA

Precision crafted from the highest quality materials, Hu-Friedy syringes are available in two styles, the Cooke-Waite and Type A, with large diameter finger rings for enhanced control, large window for enhanced carpule visibility and sharp harpoons for easy cartridge engagement.

TISSUE PLIERS PINZAS PARA TEJIDO

Hu-Friedy's tissue pliers are engineered with tungsten carbide inserts to provide a superior grasp for enhanced tissue management and increased longevity during the suturing process. Available in three styles, Plain, 1x2 and Multiple Teeth, the portfolio offers a variety of designs to accommodate clinician preferences.

HU-FRIEDY'S INSTRUMENT MANAGEMENT SYSTEM

SISTEMA DE MANEJO DEL INSTRUMENTAL HU-FRIEDY

Hu-Friedy's Instrument Management System, IMS, is the most comprehensive, reliable and complete instrument processing and infection control system on the market today. Your instruments are protected and secure so they last longer. Your staff benefits because instrument handling is decreased. Hu-Friedy's long lasting, low maintenance stainless steel cassettes hold each procedural set-up through the entire cleaning, sterilization, storage and presentation cycle. IMS was designed for you and your busy practice—it's adaptable, flexible, easy, safe and efficient.

1. Chairside: Patient Preview & Presentation

- Systematically organizes instruments according to procedure type, allowing for more focus on patients and less time spent looking for missing instruments
- Neatly organized instruments offer more professional appearance and can help enhance referrals

2. Cleaning: Processed & Prepped

- Instruments are kept together throughout cleaning, rinsing and drying, reducing the potential for breakage or loss
- Allows for less handling of instruments, reducing the chance for sharps injuries

3. Sterilization: Neat & Complete

- Cassettes with instruments are packaged and placed in autoclave together to help reduce consumable usage
- Reduced handling of instruments provides safer protocol and minimizes liability

4. Storage: Wrapped & Ready

- Ready for use or storage until needed for increased time savings
- Complete procedural set-ups for easy set-up and teardown

Hu-Friedy's Instrument Management System is the most comprehensive, reliable and complete instrument processing and infection control system on the market today. Use IMS cassettes to hold instruments and accessories in place throughout the entire Instrument Management Cycle. Once a chairside procedure is finished, contaminated instruments never need to be touched again. IMS combines sterilization, storage and organization of instruments in one integrated system. Use IMS to: improve staff and patient safety, maximize office efficiency, streamline instrument organization and protect instruments from breakage.

Oral Surgery Cassette

Exterior Dimensions 8" x 14.5" x 1.25" (203 mm x 368 mm x 32 mm) Accommodates 12 instruments, 4 elevators, 3 hinged instruments in the lid and a separate accessory area. Has a built-in needle cap holder and slot for a winged syringe.

Fits in most 10" chambers or larger sterilizers, most instrument washers and larger ultrasonics.

Red	IMOS0

Green	IMOS9

NEEDLE COVER HOLDER

Use for hands-free recapping.

| STSKSL

Fits all needle cover sizes.

1. Instructions for use: Place thumb and index finger in grooves and push.
2. Insert needle (capped) into hole, release pressure and pull off needle.
3. To re-cap, place device on table with cap, re-cap needle.
4. Reapply pressure with thumb and index finger and withdraw needle in cap, dispose.

BAGETTE® SELF-SEALING STERILIZATION POUCHES

Bagette® Self-Sealing Sterilization Pouches are constructed with durable materials and thick seals. Built-in external and internal quality control indicators relay accurate time and temperature verification, allowing you peace of mind. The full line of pouches include those custom fit especially for our cassettes and a smaller size for all other sterilization needs.

3-1/2" x 10" (89 mm x 254 mm) Fits 3-6 hand instruments. 200 pouches	IMS-1236
7-1/8" x 13-13/16" (181 mm x 351 mm) For Exam 5-instrument, Double-Decker® 8-instrument, Symmetry IQ, and Ultrasonic Insert/Handpiece cassettes. 100 pouches	IMS-1237
8-7/8" x 14-5/16" (225 mm x 364 mm) For Small 8-10 instrument, Double-Decker 14-instrument, Radiography, Space Saver Seven™, Small Thin Ortho and Small Resin 7-16 instrument cassettes. 100 pouches	IMS-1238
11-5/8" x 17-5/16" (295 mm x 440 mm) For Large 16-20 instrument, Double-Decker 20-instrument, Signa-Stat 12-instrument, Large Thin Ortho and Large Resin 12-24 instrument cassettes. 100 pouches	IMS-1239

IMS® CASSETTE WRAP

IMS Cassette Wrap is engineered to withstand the harsh conditions of sterilization. Our unique compilation of textiles is designed to be strong and soft for easy wrapping and durability. This low-lint, memory free wrap is available in two grades to meet your needs.

Autoclave Wrap

Autoclave Wrap offers the best combination of softness and added strength.

24" x 24" (610 x 610 mm) For Large Cassettes 500 Sheets	IMS-1210
20" x 20" (508 x 508 mm) For Large Cassettes 500 Sheets	IMS-1212
15" x 15" (380 x 380 mm) For Small Cassettes 1,000 Sheets	IMS-1211
12" x 12" (305 x 305 mm) For Small Cassettes 1,000 Sheets	IMS-1213

Universal Wrap

Universal Wrap provides great performance at a lower cost.

24" x 24" (610 x 610 mm) For Large Cassettes 500 Sheets	IMS-1214
20" x 20" (508 x 508 mm) For Large Cassettes 500 Sheets	IMS-1216
15" x 15" (380 x 380 mm) For Small Cassettes 1,000 Sheets	IMS-1215
12" x 12" (305 x 305 mm) For Small Cassettes 1,000 Sheets	IMS-1217

Note: Hu-Friedy wrap is also available in packs of 100 sheets. Add "H" to the end of the part code. Wrap is FDA cleared and intended for single use ONLY.

SPORECHECK 24 HOUR IN-OFFICE TEST

The Sporecheck 24 Hour In-Office Test® biological monitoring system provides reliable results in 24 hours, while being in compliance with local, state and federal guidelines.

SporeCheck Starter Kit | **IMS-1376**

Contains: Dry Block Incubator with built-in vial crusher, record notebook and 1 box SporeCheck Biological Indicators, 25 count

SporeCheck Biological Indicator Vials, 25 count | **IMS-1373**

ENZYMEX® ULTRASONIC CLEANING SOLUTIONS

Specifically formulated for efficient ultrasonic cleaning or pre-soaking of cassettes and instruments. Contains Steelgard™ agents to protect instruments from harmful minerals naturally found in water that contribute to buildup, spotting and corrosion. Can also be used as an evacuation system cleaner.

Enzymax Liquid

Box of 40 Liquid Packets Makes 40 Gallons (151 liters)	IMS-1222
10 boxes of 40 Liquid Packets Makes 400 Gallons (1,510 liters)	IMS-1222C
Quart Bottle Makes 32 Gallons (121 liters)	IMS-1224
12 Quart bottles Makes 384 Gallons (1,452 liters)	IMS-1224C
Quart Pump	IMS-1224P
Gallon Bottle Makes 128 Gallons (485 liters)	IMS-1226
Gallon Pump	IMS-1226P

Enzymax Powder

1.76 lb (800g) Powder Makes 50 Gallons (189 liters)	IMS-1230
6 containers of 1.76 lb (800g) Powder Makes 300 Gallons (1,134 liters)	IMS-1230C

Enzymax Pax® Single Use Packets

32 Dissolvable Single-Use Powder Packets Makes 32 Gallons (121 liters)	IMS-1232
96 Dissolvable Single-Use Powder Packets Makes 96 Gallons (363 liters)	IMS-1233

Enzymax Spray Gel

Dual enzyme gel with corrosion inhibitor acts as a ready-to-use instrument pre-cleaner. Maintains moisture to help prevent debris from drying on instruments before cleaning and helps dissolve blood, tissue, and other debris. Can also be used as a linen spot remover.

24 fl. oz (709 ml) 450 Sprays	IMS-1229
----------------------------------	-----------------

INSTRUMENT LUBRICANTS

The instrument lubricants come in a convenient non-aerosol pump bottle.

Penetrating Oil 8 oz (236 ml) Removes light rust and corrosion to loosen problem joints	IPS
Instrument Lubricant Spray 8 oz (236 ml) Keeps hinged instruments moving freely	ILS
Instrument Lubricant Spray (ILS) and Penetrating Oil (IPS) do not contain silicone.	

LILAC UTILITY GLOVES

Three pack of flocklined nitrile utility gloves for use when cleaning and processing instruments. Puncture and chemical resistant with a non-slip grip. Steam autoclavable to 250°F/121°C up to five times.

Small (Size 7)	40-060
Medium (Size 8)	40-062
Large (Size 9)	40-064
Extra Large (Size 10)	40-066

KEY OPINION LEADERS LÍDERES DE OPINIÓN

Key Opinion Leaders' names are recognizable and their work is renowned. Hu-Friedy is honored to be in close association with Key Opinion Leaders, and it is a pleasure to present them to you as individuals full of life, character and vision. Hu-Friedy strives to supply our Key Opinion Leaders of all specialties with the most current offerings and information on our products and services. Being affiliated with outstanding dental professionals only helps to strengthen Hu-Friedy in our mission:

To improve lives through dentistry – smile after smile.
